Amador Escudero, City Engineer, spoke before the council on the project which will be done by the city forces.

Mrs. Francis Villarreal, appraiser for the City of Laredo, stated that she had completed her study and determined that the appraised value enhancements will be enhanced by the improvements on all enhancements except with a few exceptions. She stated there are several parcels that are creeks therefore there are no enhancements to these parcels. Ms. Villarreal added that the plat shows that when this road was also constructed it went through blocks leaving little triangles (pieces of lots) and all those triangles have no value, therefore, if you put curb and gutter that also does not enhance the value, they are not buildable and are left at 5,000 square feet. Therefore, those parcels which are 3, 4, 5, 9 and 18 were too small to be enhanced by curb and gutter. The adjustments made are on parcels 1, 3, 4, 5, 9 and 18 for a total of 6,157.83 of which she was not recommending no enhancement.
