3. Second reading of the ordinance amending Chapter 14 (Garbage, Trash & Refuse) of the Code of Ordinances. Specifically Section 14-4.1(a) and 14-4.1(d), to increase Residential garbage fees from \$7.00 to \$9.25, Landfill tipping fees for non-compactor & compactor vehicles from inside the city limits from \$10.00 to \$15.00 per ton and for similar vehicles from outside of the county to \$100.00 per ton; providing for publication and effective date.

Cm. Juarez suggested that we should be looking at assessing on a lot per lot basis for garbage on outside the city limits residents. That we should check to see if the \$50 which is collected outside landfill fee is comparable to the \$2.25 increased fees to citizens inside the city limits.

4. 93-O-178 Authorizing the City Manager to execute an operations amendment to the Foreign-Trade Zone Site Operations Agreement between the City of Laredo and

street asked him to. He approached the city attorney to confirm the notarization of a statement which he read to council. He stated, "People can stand on the side and accuse me of lying in the windows, shooting from the hip, people can run and put it in print, but when people come here and publicly call me a liar, they are going to have to contend with it."

The statement letter read as follows: "It's dated 9/10/93."

Honorable Mayor Saul N. Ramirez
And Members of Laredo City Council

Statement of Fact

"We, Dr. A.R. Kahn, Fernando Cantu, Hector Gutierrez, Andres Sandoval, affixed our signatures as witnesses to this Statement of Fact that during a meeting at El Metro Office with Mr. R. Pulido while looking into the San Jorge Avenue project, Mr. Pulido stated that the biggest mistake he made, and I quote, "I did not communicate with the residents" we feel that Mr. Rick Pulido's denial before the City Council on live television as to having made this statement is demeaning, degrading and an insult to our integrity when we are dealing with the affairs affecting the residents of our community. We feel that the interest of fair play, honesty and the well being of our entire community, Mr. Rick Pulido owes everybody involved an apology."

He stated that this statement is signed by all four people who were present at this meeting. He stated this is an official record.

(No letter was submitted to the City Secretary's Office.)

He continued by saying that the people were not against the project, but stated from what he gathers from the letters they showed him is that they have been mislead, they have been used, and abused. That the people feel that there are other alternatives. If the council's interest is really improving the community and giving this community the best for its money, the best alternative that they can come with is that they own that area where the Park & Ride is. They feel that they can transfer that property for this property that they bought along in San Jorge. That they can put this complex in total, turn the area of El Metro and all

the surrounding area to the Boys Club, because the kids are limited to activities indoors. Why not give the kids an opportunity to have a softball field, baseball field, tennis court, etc., the kids benefit, the city benefits and the citizens benefit.

He stated that the federal government cannot push us, they give us help but that he thought they cannot dictate to us.

He concluded by asking that City Council, the government agencies, and people from these area to get together and think about these things and maybe they can come out with a solution that is suitable to council and the people.

Mr. Filiberto Garza stated that when Mr. Pulido has called meetings the residents have voiced their opposition. His concern was that the school children should be looked at.

Motion to go along with the recommendation to close and include to instruct staff to provide a sidewalk to run on Moctezuma all along the north side; provide whatever improvements as far as paving is concern from the San Jorge turnoff to the east all the way to where it's a dead-end; also, pave Coke Street from San Jorge to where it dead-ends and include the sidewalks; that enough lighting to the grounds of El Metro System be provided, but also to the outside of the corners to the creek be provided.

Mayor Ramirez stated that we have an item of \$468,978.00 set aside under civic center debt reserve (the construction reserve) and we have already built up that fund over the last four years to almost \$3.2 million dollars. He added that if this election should pass in November 2nd, as it relates the new construction that would be funded out of hotel/motel, this would more than adequately serve the one and a half times requirement for debt reserve set aside to take care of that debt which in essence is approximately five years of payments on that debt. That being the case, he asked council that they reduce that amount by \$100,000 so that besides what's being funded, these two major contracts that are being funded there are two other items that were requested, one that was not funded at all and an increase that was not funded either, that we won't be able to fund completely but we will be able to increase the allocation. He stated that he would like to handle this by separate motion if council so wishes.
