21. Discussion with possible action on whether or not to negotiate the terms of a successor agreement to the current Interlocal Agreement with Webb County, Texas, that began on October 1, 2005, and terminates on September 30, 2010, through which the Laredo Fire Department provides fire protection, emergency medical and rescue services within Webb County, by excluding any incorporated city lying outside the incorporated limits of the City of Laredo. (As amended by Operations Committee Agenda; Finance Committee has recommended this item be sent to Council)

Fire Chief Landin reported that he was present to ask City Council for guidance from the said agreement. He said that he has been working with the City Manager and his staff and they have come up with a few options that they could propose to the Council including an expansion to the fire services without EMS Services. The other option is to include EMS Services. He said that they are looking at adding additional capabilities to the organization both in the fire and the EMS side.

Mayor Pro Tempore Garza said as chairman of the Operations Committee he noted that they had a long discussion on this item. He said that they recommended eliminating the medical services. He said that they want staff to go to the County with the actual cost.

Carlos Villarreal, City Manager, said that it would be an additional \$2.5 million for fire suppression and an additional \$4 million the following year.

Fire Chief Landin said that they have formulated two proposals. He advised Council that when the Laredo Fire Department was organized and as it grew it utilized a response time of three to five minutes. He noted that the city is covered well. He said one proposal is just for fire services. He stressed that Webb County needs to invest into our organization because they are getting a \$40 million dollar fire department at a fraction of the cost. He asked City Council allow him to approach the County with the two proposals. He added that to continue both services there needs to be an investment of \$3.7 million dollars and subsequent investments of another \$2.5 in the subsequent year.

David Gonzalez, President of the Fire Fighters Union, reported that the City of Laredo does not have the man power to provide service to Webb County.

Cm. Garcia noted that Council needs to do what is right for the city and for the firefighters. He added that staff needs to consider the financial situation.

Motion to instruct staff to go to City County Government and discuss the financial situation and return to City Council with recommendations. The proposals should be sent to the Committee prior to the meeting date and a decision regarding the proposals must be made at the meeting.
